Sabuha KAYA

(1) It will return only one negative integer that is larger than all of the other negative numbers.

Day	0	1	2	3	4
Price	10	11	7	10	6
Change					

→ 0, 1, -4, 3, -4

10	12

If we go through each element we can see that the price is lowest at 4th day which is the biggest change in price
